**MSD Notice of Construction Completion
GCWW MILLER PLANT SEWER REPLACEMENT
In City of Cincinnati, Hamilton County, Ohio**

Cincinnati, June 12, 2007 – Managed by the Metropolitan Sewer District of Greater Cincinnati (MSD), Rack & Ballauer Excavating, Inc. substantially completed construction of the GCWW Miller Plant Sewer Replacement project on May 8, 2007.

The project is located on the premises of the Greater Cincinnati Water Works Miller Plant, in the California neighborhood of the City of Cincinnati. Construction consisted of replacing a broken manhole, replacing approximately 10 linear feet of deteriorated 24-inch sanitary sewer, and providing a new foundation for a tilting manhole

This project is part of MSD's ongoing Capital Improvement Program (CIP), which is focused on continually updating and improving the operation of MSD's wastewater collection and treatment systems.

Every day, the Metropolitan Sewer District of Greater Cincinnati (MSD) manages the effective collection and treatment of more than 200 million gallons of wastewater and actively maintains 3,000 miles of sanitary and combined sewers that run through the 49 municipalities and townships of Hamilton County. Owned by Hamilton County and operated by the City of Cincinnati, MSD is committed to continually maintaining and improving its wastewater collection and treatment systems for the betterment of both public and environmental health.
